

MARATONA

Circular saw blade for panel cutting

Perfect finishings!

For an excellent finishing, FREZITE has developed the Maratona circular saw blade that will guaranty you a better quality cut.

Specially designed for the cut of MDF and chipboard panels with high gloss veneer, Corian® etc. is suitable for sliding saws with scoring blade.

APPLICATION

- For cutting of coated wood based materials such as chipboard, MDF, etc. For excellent finishing quality in sensitive coatings (high gloss paintings, etc.).
- Highly recommended for thermoplastic materials (Corian®, Varicor, etc.).

MACHINES

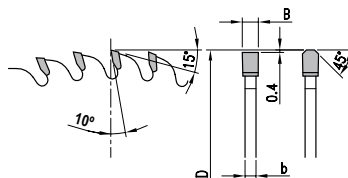

- For sliding table saw machines, table saws, etc.

TECHNICAL INFORMATION

- With triple chip flat grinded carbide teeth (HW).
- Innovative design geometry.

ADVANTAGES

- Excellent finishing.
- Long lasting therefore economic.
